

aries lunar shuttle 1B

Accurate Docking Arm Port

Replace kit part 27 with a replacement that accurately the filming miniature as it appeared in the film. (The kit part is based on a quick "repair" that was done to the miniature before it was put up for auction.)

Special thanks to Adam Johnson both for his 2001: The Lost Science books, which were a wealth of fantastic references, and for his help detailing items not covered in them.
